

MIDAS # 2598
STARBIRD POND
 HARTLAND TWP, SOMERSET CO., MAINE

STARBIRD POND

Hartland Twp., Somerset Co.
U.S.G.S. Harmony, Me. (7.5')

Fishes

White perch
Yellow perch

Chain pickerel
Pumpkinseed sunfish

Physical Characteristics

Area - 103 acres

Maximum depth - 24 feet

Temperatures:

Surface - 73°F

20 feet - 64°F

Principal fisheries: White perch, chain pickerel

Chain pickerel provide good fishing at Starbird Pond, and excellent fishing can be expected for white perch. Yellow perch became established in the early 1960's but have not developed into a viable fishery. Young-of-year yellow perch are being heavily utilized by white perch and pickerel as a food source.

Starbird Pond is used by the Town of Hartland as the Town's water supply, and the water company owns approximately one-half of the shoreline.

Surveyed - August 1962
